- MySql

PROJECTS

Landsbe   11/2023 - Present

LANDSBE is an e-commerce platform designed to offer a wide range of products, from electronics to fashion and home essentials. As a Full-Stack Developer, I worked on both the front end and back end, using HTML, CSS, Bootstrap, React.JS, Node.js, and MySQL to create a user-friendly interface and ensure smooth functionality across the platform.

Quizzer   10/2022 - 10/2023

Quizzer is a web application for exams and quizzes. As the front-end developer, I built the user interface using HTML, CSS, Bootstrap, TypeScript, React.JS, and Redux. I collaborated with UX/UI designers to create responsive layouts and developed reusable components for a smooth user experience. I also integrated RESTful APIs and optimized performance through lazy loading and code splitting.
